

Wage Reopener Moving Forward

Raise Agreement Making Way Through Legislature

We voted for it, UConn Health approved it, and the agreement to reopen our contract to include raises in its final year is another step closer to approval, now that the legislature's Appropriations Committee has sent it to the full Senate and House to take up by the end of the legislative session next month.

It's part of a larger effort by the member unions of the State Employees Bargaining Agent Coalition (SEBAC), which secured the agreement through coalition bargaining with the Lamont administration. The agreement provides a 2.5 general wage increase (GWI) effective July 2024 and a step increase January 2025.

CONTRACT CORNER

About Those Evals

April is the month for yearly evaluations. All employees should receive their evaluation on or before April 30.

If you do not receive an evaluation do not panic. It is not your responsibility to manage evaluations. Further, if you do not receive one then you are considered fully satisfactory for the year.

Although it is not mandatory we strongly advise you to sign and date the evaluation, and make a copy. Please do not forget to check whether you agree or disagree with the evaluation. If you receive an unsatisfactory evaluation it is very important to call the UHP office so that we are aware of it, and we can discuss your options with you.

If you receive an unsatisfactory evaluation and we are unsuccessful in overturning it, or we cannot secure an interim evaluation for you, then you will be ineligible for the January 2025 step increase.

You also have the right to write a rebuttal and have it attached to your evaluation as long as it is done within 30 weekdays of the evaluation being placed in your personnel file.

**—In solidarity,
Jean Morningstar, Chief Steward**
